iZotope Insight is a sonic metering and analysis suite for professional sound engineers, producers, and editors. This powerful analysis tool enables you to find sound problems and solve issues with audio quality and compression without having to dissect hours of audio. Using the built-in metering and analysis tools, it helps you identify and correct problematic sound sources, and automatically adjusts volume, time-stretching, and frequency domain compression settings. iZotope Insight Features:

- Convert up to 16 tracks to mono or stereo
- Automatically analyze the sound of every track and load the results into the mixer
- Convert any audio track to a different sample rate, bit depth, and format with no sample rate conversion
- Find and diagnose

sonic problems in real time • Convert any audio track or batch of tracks into a multi-channel signal • Rearrange, split, and shuffle audio tracks using a simple drag-and-drop interface • Crop, scale, and trim audio files • Adjust volume, time-stretching, and frequency-domain compression settings • Assign individual metering data to any channel • Export meters and metering data to a number of different file formats • Lock and unlock time-stretching or frequency-domain compression functions • Display panning information for individual tracks • Add EQ presets for use in the editor • Visualize your entire audio library as a spectrogram • Annotate a spectrogram with waveform and mask overlays • Rearrange, split, and shuffle audio files

AudioBus: Magnetic Mass
BreakThrough The AudioBus Magnetic

Mass Breakthrough is the latest addition to the highly popular AudioBus car audio line of products. At 0.42 inches thick, the Magnetic Mass Breakthrough provides the same functionality as their first large entrance strip but in a much thinner and more versatile format. The unique magnetic design of the Magnetic Mass Breakthrough allows it to be mounted horizontally or vertically. This flexibility allows the new system to be installed anywhere on a vehicle as a full bumper replacement or as a decorative center piece in rear or side quarter panels. The Magnetic Mass Breakthrough also integrates an air pump to prevent moisture from entering the system. In addition, the Mass Breakthrough utilizes the industry leading AudioBus Quad system design to provide a complete system with easy

to use features for audio, GPS, air conditioning, and more. The magnetic design of the Mass Breakthrough allows it to be mounted anywhere on the vehicle. The Mass

Music business magazine Midem is now accepting entries for the 2013 Midem Global Music Industry Summit, scheduled for Oct. 2-5 in Cannes, France. In a wide-ranging summit covering every facet of the music industry, Midem Global will host more than 40 panel discussions ranging from “Why Music Monetization is the Key to Long-Term Success” to “How to Survive in the Digital Age: The Future of Music Publishing, Technology and Business.” We have put together an invaluable global music marketing conference covering over 35 top

forums for musical artists, publishers, artists, managers, retailers and broadcasters. The Summit will boast over 150 industry speakers with more than 50 attending sessions. The Midem Global Music Industry Summit 2013 is the only annual music conference where the leading global music industry players gather together with its music creators and stakeholders to embrace key music business issues and opportunities in a roundtable environment for an insight-rich, insightful and entertaining experience. This year's Midem Global Summit has expanded on the list of panels and is now offering you a chance to create a line-up of speakers that reflect your personal interests and expertise, as well as contributing to all stages of the music business. A minimum of one panel with three speakers will be

selected for each session. A number of featured authors, composers and music business experts will also speak. Panels will include representatives from the following:

AARON WEIL Aaron Weil is an internationally acclaimed music business consultant, who has been advising the music industry since the late 1990s. He is also President and Chairman of Sound Business Media (SBM), which he founded in 1997. Weil advises more than 200 music companies from the US and Europe on creative and management strategies, and is a regular speaker at conferences around the world. He is also the author of the book “The Music Business’ Seven Sins,” and the Art Market expert columnist for Wall Street Journal and The Hollywood Reporter. Aaron Weil was interviewed by Joe Giddens for Inc. Magazine in 2009. He was also

featured as a “Music Power Broker” in the book “He is Mr. Music Business” by Martin L. Gore. Weil is a graduate of Harvard University where he was

What's New in the?

Over the years, the recording industry has become more complex, and in order to meet the demand for constant change, the rapid growth in the variety of platforms and devices and the increasing pressure to produce higher quality results, it is necessary to switch to the latest techniques and resources. Studio Audition Pro is here to assist you in the mastering process. This plugin is intended to analyze the sound quality of your audio mix and fix problems. One of the best free softwares on the market, getting Premiere Pro has been a dream. Last week, Adobe made a real breakthrough on the market with Adobe Creative Suite 5 Advanced. The most interesting features of this long-awaited upgrade are its new dynamic feature, its continuous compression, proxy references and best of all, the post workflow. Referencing your audio levels and color correcting them is a simple task with the use of Adobe Creative Suite. The new effects features of this new version of Premiere Pro are also a big plus. Adobe Creative Suite 5 Advanced has a slew of new features that everyone can use.

Using these, composers can achieve a higher degree of accuracy and
